WEB DEVELOPER

With an experience of 4 years as a Web Developer, with strong background in JavaScript, I am seeking a position that will allow me to make use of my skills and give me an opportunity to contribute to the growth of the company

PROFESSIONAL EXPERIENCE

ContractWolf

Jan 2022 - Present

Smart Contract Auditor

- Conducted manual code reviews for blockchain projects, identifying potential security vulnerabilities and inefficiencies.
- Performed functional testing on smart contracts, verifying transaction workflows and security mechanisms.
- Authored audit reports, providing detailed insights into security risks and best practices for remediation.

MTech Biometrics

Jan 2025 - Present

Full Stack Developer

- Designed and implemented an API Bridge to facilitate secure and efficient communication between access control terminals and business applications
- Developed Live Monitoring, Timekeeping, and Pay Parking applications by integrating third-party user access control terminals, enabling real-time tracking, attendance management, and automated parking fee calculation

EmergentX

Jan 2024 - Dec 2024

Full Stack Developer

- Spearheaded the development of real-time, ensuring security and performance in a consultation application.
- Designed and maintained scalable Next.js applications, integrating GraphQL for efficient data fetching.
- Implemented WebSocket communication, enabling real-time updates and interactions across the platform.
- Implemented Stripe payments, enabling users to receive payments per consultation

ARTBAT Live

Aug 2022 - Aug 2024

Full Stack Developer

- Developed full-stack web applications, integrating frontend UI/UX with backend APIs for optimal user experience.
- Created web-augmented reality (AR) experiences, interactive content engagement.
- Maintained a Shopify E-Commerce app, updating the products and adjusting the design
- Built applications using Next.js and MERN stack, ensuring scalability and maintainability of web platforms.
- Led the development of a Record and Voting Web App, facilitating secure and transparent voting mechanisms.

Ally Techno Grit Solutions

Mar 2021 - May 2022

Software Engineer

- Developed and maintained full-stack web applications, ensuring seamless functionality across front-end and back-end systems.
- Contributed to the development of a Payroll Management SaaS Web App, streamlining HR processes for businesses.
- Conducted QA testing to identify and resolve application defects, improving software reliability.
- Worked with the Laravel framework, implementing RESTful APIs and backend logic for web applications.
- Contributed to the development of a Content Management System (CMS) Web App

EDUCATION

Bachelor of Science in Information Technology

AMA Computer College
