

Karl Christoper Cusi

FULL STACK DEVELOPER

+639453017564 · kgcusi@gmail.com · kgcusi.com

PROFESSIONAL SUMMARY

Full stack developer with 5 years of experience building line-of-business systems in TypeScript: timekeeping and access control, field reporting, inventory, billing and payroll. Next.js and React on the front end, NestJS and Node.js on the backend, over PostgreSQL and MySQL. Also audits Solidity smart contracts for ERC20 tokens and swap mechanisms.

PROFESSIONAL EXPERIENCE

MTech Biometrics | Jan 2025 – Present

Full Stack Developer

- Designed and implemented an API bridge connecting access control terminals to business applications.
- Developed Timekeeping, Live Monitoring, Logs Tracking and Pay Parking applications on top of third-party biometric and access control hardware.
- Delivered real-time attendance tracking and automated parking fee calculation, reading and processing data directly from the vendor database.

ContractWolf | Jan 2022 – Present

Smart Contract Auditor

- Conducted manual and automated reviews of Solidity contracts, covering ERC20 tokens and swap mechanisms.
- Performed functional testing on smart contracts to verify transaction workflows and security mechanisms.
- Authored audit reports documenting security findings and remediation steps for clients and investors.

Liga Gaming | Jun 2025 – May 2026

Backend Developer

- Developed backend microservices in NestJS for an online casino platform.
- Built and maintained the Announcement Service and Notification Service, including the messaging contracts they share with other services.
- Implemented event-driven architecture with Kafka and inter-service communication over gRPC.
- Containerized services with Docker for consistent deployment across environments.

EmergentX | Jan 2024 – Dec 2024

Full Stack Developer

- Developed a real-time consultation platform, joining mid-project alongside two senior developers.
- Built and maintained Next.js applications with GraphQL for data fetching.
- Implemented WebSocket communication for real-time updates across the platform.
- Integrated Stripe so practitioners receive payments on a per-consultation basis.

ARTBAT Live | Aug 2022 – Aug 2024

Full Stack Developer

- Sole developer, building full-stack applications across frontend interfaces and backend APIs.
- Created web-based augmented reality experiences using 8th Wall.
- Maintained a Shopify e-commerce store, handling product updates and UI adjustments.
- Built applications with Next.js and the MERN stack.
- Led development of the record and voting application behind their Live Virtual Art Battles, along with a livestreaming template.

Ally Techno Grit Solutions | Mar 2021 – May 2022

Full Stack Developer

- Developed and maintained full-stack web applications across frontend and backend systems.
- Contributed to a Payroll Management SaaS application covering payroll and attendance for business clients.
- Conducted QA testing to identify and resolve application defects.
- Implemented RESTful APIs and backend logic using the Laravel framework.
- Developed a Content Management System web application.

EDUCATION

Bachelor of Science in Information Technology

AMA Computer College
